Auto Body Repair

Welcome to Auto Body! I am Blake Winters and have been the Auto Body Repair instructor at IVVC since 2015. I completed my auto body certification through Waubonsee Community College and have worked in the auto body field for about eight years. I have worked in regular production body shops and custom/restoration shops, as well as working and painting for a sign manufacturing company in Elk Grove Village. I have a degree in Illustration from Columbia College in Chicago. I am also part of the Chicago Brushmasters - a group of pinstripe artists that help raise money for the Ronald McDonald House Charities.
